Mr. Chen Guilin

Email: guilin.chen@tuv-sud.cn

To Whom It May Concern:

This is to explain that we have performed fire test for valves according to API SPEC 6FA Third Edition, April 1999, Reaffirmed, September 2011 and their conformity assessment procedures are according to the above mentioned standard upon request of

Suzhou Antiwear Valves Co., Ltd.

No.988, Yuexiu Road, Fenu Economic Development Zone,

Wujiang District, PC: 215211, Suzhou City, Jiangsu Province, P. R. China

The certificates have been supplied by TÜV SÜD and detail information can be seen in the certificates with no. 250801,250803,250805,250807,250809 and 250811

Here we can confirmed that the test process and acceptance criteria have no change on the basis of API SPEC 6FA Third Edition, April 1999, Reaffirmed, September 2011 and API STANDARD 6FA FOURTH EDITION, JUNE 2018 on the consultation of Suzhou Antiwear Valves Co., Ltd.

Should you have any further query, please feel free to contact us.
